### **Novalux** è un esempio di **imprenditorialità familiare**

emiliana. Una preziosa idea di Gino Persiani, fondatore di Novalux. Classe 1910,

trentenne allo scoppio della Seconda Guerra Mondiale. Proprio in Germania arriva

l'illuminazione: Gino Persiani **vede per la prima volta i tubi**

**fluorescenti** utilizzati dai tedeschi sui sommergibili, e inizia a fantasticare

su come usare quella fonte luminosa che, con un vestito su misura progettato da lui,

diventa un vero apparecchio di illuminazione. Nel 1948 nasce Novalux.

Il **successo dell'azienda** di illuminazione prosegue ancora oggi

con il nipote di Gino, Alessandro Sgrignoli, che ha ereditato l'intuito e il coraggio

imprenditoriale del nonno, conducendo l'impresa con la sua stessa **grinta e**

**lungimiranza.**

Novalux is an example of an Emilian Family entrepreneurship, started by Gino Persiani. He was born in 1910 and at the outbreak of World War II, he was 30 years old. Precisely in Germany he **sees for the first time the fluorescent tubes** on the German submarines and starts dreaming about how to use this lighting source. As a self-designed tailored dress, this innovative source of energy becomes a real lighting device. In 1948 Novalux is established. The work and **SUCCESS of Novalux** continue today with Gino's grandson. Alessandro Sgrignoli inherited his grandfather's intuition and entrepreneurial courage, while leading the company with the same **determination and foresight.**
